MLT: IR Mini Source BaF2 - ADVANCE ORDER

Extended Description:

Warehouse: MAIN 21-D2

This is a PROPOSED REPLACEMENT for Rosemount's obsolete 42716489-V1 source. The 42716489-V1 became NLA (no longer available) August 2023. This was primarily due to the OEM's closure of its Hasselroth Germany facility. RIGAS is taking advance orders for this item; the first batch is expected to ship mid December 2023 or sooner.

ORIGINAL INFORMATION ABOUT 42716489-V1: This is an infrared source (IR) for the MLT microchannel physics benches. Typically used for CO & CO2 measurements. Two wires. Reads approx. 20 ohms when new. Encapsulated (includes hermetically sealed BaF2 window, nitrogen filled) infrared source with parabolic mirror; with wire harness (two conductors) & plug (5 pins connector (2 wires, 2 blanks, 1 key; connects to PIC01 or XSP01).
